DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Harris et al 5,672,662.

The cited prior art discloses PEG and related polymers and monosubstituted with propionic and butanoic acids and functional derivatives thereof for biotechnical applications. The prior art polymers are activated derivatives comprising water-soluble non-peptidic polymers having features and characteristics as claimed. See columns 1-5.
